During the L.A.R.C. Zoom meeting on June 4, 2020, I mentioned that the N3FJP Logging software has a feature that allows the logging software to upload contest status to a web site so that the status can be viewed online. This is a feature that Scott Davis, N3FJP added for people that may leave the contest site but still would like to keep up to date as how things are going. Below is an example of what the software will upload. This page would be viewable

VE3LON ARRL-FIELD-DAY Status

Current status as of:
2020-06-07 00:18:54 UTC
2020-06-06 08:18:54 PM Local
Updates are set to upload every 3 minute(s).
Your Internet browser will refresh this page automatically every minute.

The first part of the page indicates how current the information is. This information is actually from 2019.

Message:

We could use a hand with tearing down the site at 2:00 pm

You can have a message that people can read providing some information about the site.

Current Score Statistics:

Total CW Contacts = 262

Total Phone Contacts = 461

Here is where current statistics can be found.

Total DIG Contacts = 47

Total QSO Points = 1,079

QSOs / Hour Last 20 Minutes = 0

QSOs / Hour Last 60 Minutes = 0

Total Op Time (breaks > 30 min deducted): 18:48:54

Avg Qs/Hr (breaks > 30 min deducted): 40.9

Created by: N3FJP's ARRL Field Day Contest Log 6.3

N3FJP Software: www.n3fjp.com

Serving the Amateur Radio community with contesting and general logging software since 1997.

Further down the page you would find the most recent contacts that was made. This is configurable as to how many contacts would be displayed.

London Amateur Radio Club Field Day Total Score = 123

Current status: 06-04 21:13 UTC

Call	Score	QSOs	20 Min	60 Min	Frequency
VE3EI	49	49	0	0	
VE3XDM	36	18	0	0	
VE3ZMC	28	14	0	0	
VE3FBZ	6	3	0	0	
VA3DAE	3	3	0	0	
VA3MSV	1	1	3	1	

N3FJP Software: www.n3fjp.com

Serving the Amateur Radio community with contesting and general logging software since 1997.

The next image is an example of what the summary page would look like.

The title line shows the club name with the contest that the summary is for with the total accumulated score.

The second line indicates how current the statistics are.

Then we have the callsign of the hams affiliated with the club that I have configured to be displayed on this web page.

Each callsign is a hyperlink to that ham's summary page that was mentioned above

Now let's start up one of the N3FJP logging programs to show you how to configure it to upload the web summary to the web server.

Now that the program is up and running, you will now need to display the **Settings** menu.

You will see that the third option from the bottom is **Web Upload Contest Status...** If you hover your mouse cursor over top of that, a sub menu will appear. You will want to click on the **N3FJP HTML Formatted** option.

Web Contest Status Uploader

Call, Club or Group Name (Web Page Title)
VE3LON ARRL-FIELD-DAY Status

Ex: Your Call / Club Name Field Day Status

Message
Use to remind folks coming later of any needed supplies (ice, bug spray, coax connectors, etc.).

☑ Upload web page to the following site:

FTP URL of Your Hosting Site (Ex: ftp://yoursite.com/)
ftp://va3msv.ca/

Your Hosting Site User Name
LARCuser

Your Hosting Site Password
****

File Name on Website
VE3LON-contest.html

Forecolor   **Backcolor**
Black   LightBlue   ☑ Passive Mode

☐ Create text file for packet distribution

Location to Save Text File for Packet Distribution
C:\Users\VA3MS\My Documents\Affirmatech\N3FJP S

Upload Frequency in Minutes (3 is default)
3

Recent Contacts to include (10 is default)
10

☑ Include Score Statistics
☑ Include Current Frequency (if known)
☐ **Enable Automatic Upload**

Status

Upload Now

View HTML File on Hard Drive   View Packet File

Other Online Sites   Done

The first entry field is your web page title for example VE3LON ARRL Field Day Status. Replace VE3LON with your own callsign.

Next you can enter in a message for anyone that views your status page. You could indicate the band that you are currently on. Or that you are operating outside and willing to have visitors at social distance.

Next make sure that **Upload web page to the following site:** has a checkmark in the box.

FTP URL of Your Hosting Site will be ftp://va3msv.ca/

Your Hosting Site User Name is **LARCuser**

Your Hosting Site Password is **LARC4ever!!!**

File Name on Website can be anything you like but I would suggest **(Callsign)-contest.html**. For example, Dave McCarter might have his file name as **VE3EI-contest.html**. There is no need to change this file name for future contests. This way I don't have to change the configuration on my end for any future contests. **Please let me know what filename you decide on so I can get you configured into the Club Score Processor program.**

You could change the text and background colours if you like.

Text file for packet distribution does not need to be checked. This is a file that would be sent by packet radio which isn't used, to my knowledge, in London.

Upload frequency is the time period in minutes that your statistics is uploaded to the website. This upload will only occur when the logging program is running. I will leave this to your discretion as to how often. Recent Contacts would be how many of the last contacts made that you want to display.

Make sure **Include Score Statistics** is checked as this is one of the purposes of this web page. You can have **Include Current Frequency (if known)** checked as well but it is not necessary as it might be blank unless your radio is interfaced with the N3JFP logging software.

When you have everything configured, click on **Upload Now**. If the upload was successful, the **Enable Automatic Upload** check box will automatically get checked. Now everything is all set for automatic uploading of your statistics based on your upload frequency. You can now click on **Done** to closed the **Web Contest Status Uploader** configuration.

If you close the logging program and then start the program again, this configuration will be remembered but it doesn't hurt to check it to make sure.

I also started the N3JFP Winter Field Day logging program and most of the **Web Contest Status Uploader** was already pretty much configured. We can use this for future contests. If anything, we can use it to see how other members are doing in future contests.

If there is a Field Day Zoom Meeting session during Field Day Weekend, I will try to monitor it as much as I can to provide some assistance.

If there isn't a Zoom Meeting session for the weekend. I can be reached by other means.

Google Hangouts – va3msv@gmail.com

Skype – va3msv@hotmail.com

Call or text – 519-719-3450

And of course, you can try calling me on VA3LON

I do have a few laptop computers that can be made available. These will be sanitized before delivery.

Have fun and stay safe. I look forward to seeing everyone's statistics Field Day Weekend.

73

John Visser, VA3MSV
