

Proposed Ham Radio Activities for Starex-2017

Version 1

Introduction

This document summarizes the approaches, techniques and equipment that will be used by the Amateur Radio operators supporting the Starex-2017 Search and Rescue exercise. It is expected that this document will change as the requirements and our plans are clarified, and the version number in the top right corner of this page will be incremented for each published update. The latest version of this document will be available on the following website:
